

**REMARKS**

Claims 1-47 are pending in the present application.

The Examiner has required election in the present application between:

Group I, claims 1-42, drawn to a fabrication method of a polymer-gel display (the Examiner states that claims 1-21 are being grouped together with claims 22-42 because they can be searched together with claims 22-42 without creating an undue burden on the Examiner); and

Group II, claims 43-47, drawn to an operating structure of a polymer-gel display.

**For the purpose of examination of the present application, Applicants elect, with traverse, Group II, Claims 43-47.**

It is respectfully submitted that it should be no undue burden on the Examiner to consider all claims in the single application. Reconsideration and withdrawal of this Restriction Requirement are respectfully requested.

In the event that the Examiner persists in this requirement, Applicants reserve the right to file a Divisional application at a later time, if so desired.

Should there be any outstanding matters that need to be resolved in the present application, the Examiner is respectfully requested to contact the undersigned, at the telephone number below, to conduct an interview in an effort to expedite prosecution in connection with the present application.
